

Are your fundamentals strong?
Can you be the Champion?

Mathematics and the Sciences can be highly abstract subjects. They are often concerned with the manipulation of symbols rather than objects. The concepts are closely-knit structures which are interrelated and hierarchical and unless the lower level concepts are mastered, higher level concepts are difficult to understand.

The key to all learning is conceptual understanding and this is the rationale underlying Educafé's Math & Science Grade Readiness Test. This online test assesses understanding of fundamental concepts of the previous grade, knowledge of which is essential for success in the present grade.

The product is designed innovatively and focuses on learning, error pattern analysis and not rote memory.

KEY FEATURES

- Applicable for students of the 10th, 11th and 12th grade,
- Aligned to the CBSE curriculum
- Identifies the error patterns and provides a detailed analysis, so that the learner understands the concept

READINESS TEST REPORT

A detailed computerized report is generated which indicates

- the student's readiness for the present grade in terms of understanding of fundamental concepts necessary for success.
- the different concepts that were assessed and the student's performance on each concept, in terms of error committed, if any, the correct answer as well as the working process. Concepts that have been mastered and concepts that need attention are highlighted.

The Readiness allows you to identify Learning Gaps in the core subjects of Math and Science, assisting you to focus on mastering them. With over 50% of the jobs in the future requiring a strong understanding of Math and Science, this Readiness test will give you the 'winning edge'
